Experience

Gabmor

Software Developer

Jun 2023 – Dec 2024

Thane, Maharashtra

- Worked as a full-stack software developer for an online educational courses portal
- Implemented backend APIs to expose and update user and course details in backend using Spring Boot
- Implemented frontend from scratch with React and Redux
- Used MySQL for database and worked on stored procedures to be triggered from backend
- Stack: Java, Spring Boot, MySQL, React, AWS(S3, Route53, CloudFront, EC2), Bootstrap, Git

Projects

Lwiggy - an online food delivery portal

[\[Live\]](#) [\[GitHub\]](#)

- Developed a full-stack food delivery web application enabling users to discover nearby restaurants, browse menus, and place orders
- Built REST APIs with Spring Boot and MySQL for user, restaurant and order management
- Secured endpoints using Spring Security and JWT for stateless authentication
- Managed client-side state with Redux Toolkit for cart and user session handling
- Containerized the full stack using Docker Compose for easy setup and deployment
- Stack: Spring Boot, MySQL, React, Redux, Material-UI, Docker, JWT, Git, AWS(EC2)

Alien Hunt - Single-player game

[\[GitHub\]](#)

- Developed a 2D single-player alien hunting game using C++ and the Raylib graphics library
- Implemented player controls, collision detection, sprite-based enemies, and wall mechanics
- Used Raylib for rendering game objects, handling input, and managing game loop and state
- Designed and integrated custom sprites for monsters, player, and environmental assets
- Built a modular codebase using header files and classes to separate game logic and rendering
- Added a scoring system to enhance gameplay engagement
- Stack: C++, Raylib, Makefile, Git

Technologies

Languages: Java, Javascript, C++, HTML, CSS

Frameworks: Spring Boot, React, Redux, Material-UI, Express, Bootstrap

Databases: MySQL, MongoDB, DynamoDB, Redis

Cloud Infra: AWS(EC2, S3, Lambda, Route53, CloudFront)

Other tech: Git, Docker, IntelliJ IDEA, VS Code, Figma

Certifications

- [React - The Complete Guide By Academind \(Udemy\)](#)
- PG Diploma In Advanced Computing from CDAC

Education

Mumbai University, BE in Computer Engineering

May 2018 – May 2022

- CGPA: 8.42/10
